

SHIVANGI

Senior PHP Laravel Developer | 9+ Years | Fintech & Payment Integrations | AWS

+91 88603 32528 | shivangibhagat@gmail.com | linkedin.com/in/shivangi-bhagat | New Delhi, India

PROFILE

Senior PHP Laravel Developer with **9+ years of experience** building secure, scalable web applications and REST APIs. Specialised in **fintech and payment integrations** (Razorpay, PayPal, Cashfree KYC/PAN/GSTIN, GST e-invoicing, Tally, Finbox), **MySQL database design and query optimisation**, and **AWS serverless workflows** (Lambda, SQS, SNS). Built Laravel CMS and API backends powering web and mobile apps (Android & iOS), and deploy Laravel applications to production with SSL. Experienced in Agile delivery, code reviews, mentoring developers and AI-assisted development (Claude Code).

KEY SKILLS

Backend	PHP (7.x / 8.x), Laravel, CodeIgniter, Core PHP, MVC, RESTful API Design & Development, Web Services, SOLID Principles
Database	MySQL, PostgreSQL, SQL, Database Design, Query Optimisation
Payments & Fintech	Razorpay, PayPal, Cashfree (KYC / PAN / GSTIN Verification), Payment Webhooks, GST E-Invoicing (Master GST), Tally XML API / Tally ERP, Finbox Bank Statement Processing
Cloud & Deployment	AWS Lambda, SQS, SNS, SES, S3; Laravel Deployment on Linux Servers; SSL Certificate Configuration — <i>pursuing AWS Solutions Architect – Associate (SAA-C03)</i>
Frontend	JavaScript (ES6+), jQuery, AJAX, JSON, HTML5, CSS3
Integrations	WhatsApp API, Zoom SDK, Vimeo, SMS Gateways, Google Maps & Places API, XML APIs
AI-Assisted Development	Claude Code (AI coding agent) with VS Code & Git workflows
Tools & Practices	Git, Bitbucket, GitHub, Jenkins (CI/CD), Postman, Jira, Agile/Scrum, Code Review, Technical Leadership, Team Mentoring, Debugging & Performance Optimisation
Exposure	React, TypeScript, NestJS (through AI-assisted development on SOMAARTH) — currently learning hands-on

PROFESSIONAL EXPERIENCE

Senior Software Engineer (PHP / Laravel)

May 2017 – Present

Double Klick Designs Pvt. Ltd. | New Delhi, India

Leads development of enterprise-grade web applications, specialising in fintech integrations and cloud-native PHP solutions. Responsible for system integrity, database performance, and mentoring a team of developers in an Agile environment.

- **Architecture & Development:** Designs and implements backend logic in Laravel and CodeIgniter following SOLID principles and design patterns.
- **AWS Cloud:** Architects serverless workflows with AWS Lambda and asynchronous message processing via SQS and SNS to improve scalability and response times.
- **Fintech & Payments:** Leads end-to-end integration of Cashfree (KYC / verification), Razorpay, and PayPal with secure transaction handling and data encryption.
- **System Integration:** Bridges legacy and modern systems through Tally XML API integration and automated bank-statement processing via Finbox.
- **API Management:** Builds and documents RESTful APIs and webhooks for web and mobile clients, validated with Postman.
- **Deployment:** Deploys Laravel applications to production servers and configures SSL certificates.
- **Quality & Debugging:** Troubleshoots complex SQL queries and JavaScript/jQuery logic to sustain 99.9% system uptime.
- **Agile Collaboration:** Participates in sprint planning, stand-ups, and code reviews using Jira and Bitbucket.

Intern

May 2016 – Aug 2016

Xperia Technologies Pvt. Ltd. | New Delhi, India

- Built website layouts and user interfaces using standard PHP / HTML / CSS practices.

- Worked with designers and programmers to deliver the website; gathered and refined requirements.

KEY PROJECTS

IFAPA — Event & Member Engagement Platform

Jan 2026 – Jun 2026

Tech: Laravel, MySQL, RESTful APIs, Postman | www.ifapa.in/crm

Official event and community app for IFAPA (Android & iOS). Built the Laravel CMS / admin panel and the complete REST API backend powering both mobile apps.

- Developed a Laravel CMS for administrators to manage event agendas, speakers, venues, exhibitors, sponsors, news and announcements.
- Designed and built RESTful web services consumed by both Android and iOS apps — a single backend with consistent data across platforms.
- Enabled real-time content publishing so CMS updates reflect instantly in the mobile apps; handled database design, API testing and deployment.

Dotclear — Accounting & Client Management Platform

Nov 2022 – May 2026

Tech: Laravel 9, MySQL, Tally XML API, Jenkins, Bitbucket, Jira | app.dotclear.io

Web-based platform to centralise client management and revamp the organisation's accounting and financial management system for transparency, efficiency and regulatory compliance.

- **Streamlined Accounting:** Automated routine tasks and reduced manual data entry.
- **Financial Data Consolidation:** Unified financial data from multiple departments into one view of financial health.
- **Tally Integration:** Integrated Tally books with the platform.
- **Reporting & Analytics:** Built reporting dashboards for financial trends; delivered in Agile sprints with Jenkins CI/CD.

Fintech Payment & KYC Integrations

Nov 2022 – May 2026

Tech: PHP, Laravel, Razorpay, PayPal, Cashfree, Master GST, Finbox, AWS Lambda, SQS, SNS

Led end-to-end integration of payment and verification APIs across client platforms.

- Integrated Razorpay and PayPal payments with webhook handling, and Cashfree KYC (PAN/GSTIN verification).
- Implemented GST e-invoicing via Master GST and automated bank-statement processing via Finbox.
- Designed asynchronous workflows with AWS Lambda, SQS and SNS so slow third-party calls run in the background, improving response times; secure transaction handling and data encryption.

Amri Hospitals — Hospital Website & CMS

Feb 2022 – Nov 2022

Tech: Laravel 8, MySQL, JavaScript, jQuery | www.amrihospitals.in

Hospital website and CMS with physician directory, secure patient portal (health records, appointments, provider messaging), online appointment booking and a health-resources library.

DhoDaalo — Laundry Service App & Website

Nov 2022 – Apr 2023

Tech: PHP, MySQL, REST APIs | www.dhodaalo.in

Backend and REST APIs for an app-based laundry service on Android, iOS and web: garment selection, pricing and billing before ordering, and scheduled pick-ups. Live on Google Play and the App Store.

SOMAARTH — Population Registry Platform (INCLIN Trust)

May 2026 – Present

Tech: AI-assisted development (Claude Code), PostgreSQL, AWS, Google Maps API

Leading delivery of a field data collection and population registry platform for a demographic surveillance study. Translated research requirements into features (review console with audit trail, data locking, multilingual forms, GIS maps), directed AI-assisted development, and handled testing, deployment and client coordination.

Other CMS & E-commerce Websites

2017 – 2022

Tech: PHP, CodeIgniter, MySQL

The Habitats Trust (conservation CMS) · Renu Dadlani (fashion e-commerce, CodeIgniter) · Life Positive (CMS, e-commerce & magazine) · Astrosciences (content platform with interactive tools).

EDUCATION

Master of Computer Applications (MCA)

2017

Rukmini Devi Institute of Advanced Studies (GGSIPU)

Bachelor of Computer Applications (BCA)

2014

Institute of Innovation in Technology & Management (GGSIPU)

Class XII (CBSE) · Class X (CBSE)

2011 · 2009

Dayanand Model School

ACHIEVEMENTS

- Authored & presented research paper “*Comparative Study on Different Types of Database Management Systems*” at the CSIT-TCI 2016 National Conference.
- 1st Prize, Ad-Mad Show — College Fest 2016.
- 2nd Prize, Database Design — College Fest 2016.
